

Shipping Policy

We work with a network of trusted vendors and makers to offer a curated selection of home furnishings. Because items may ship directly from our partners, shipping methods, costs, and delivery timelines can vary by product.

Processing & Shipping Times

Processing times vary depending on the vendor and item ordered. Estimated processing and delivery timelines will be displayed at checkout or on the product page when available. Orders may ship in multiple packages if items are sourced from different vendors.

Shipping Costs

Shipping costs are calculated at checkout and may vary based on the item selected, shipping method, delivery location, and vendor requirements. Any applicable shipping charges will be clearly shown before you complete your purchase.

Tracking Information

Once your order ships, tracking information will be provided when available. Please note that some vendors may require additional time to generate tracking details.

Delivery Considerations

Delivery timelines are estimates and may be affected by factors outside our control, including carrier delays, weather conditions, or vendor-specific fulfillment processes. Larger items may require special delivery arrangements, which will be noted at checkout when applicable.

Incorrect Addresses

Please ensure that your shipping address is entered correctly at checkout. We are not responsible for delays or delivery issues resulting from incorrect or incomplete address information.

Questions

If you have questions about shipping methods, timelines, or costs before placing your order, please contact us. We're happy to assist you in choosing items that meet your needs.
